PROFESSIONAL SUMMARY

MCA 2026 graduate and Software Engineer with hands-on experience building robust full-stack and backend applications. Proven track record of developing Django and PHP/MySQL systems featuring role-based access control, secure token authentication, transaction-safe workflows, and comprehensive automated testing. Seeking an entry-level Software Engineer position to deliver scalable, reliable, and user-centric software solutions.

SKILLS

Languages: Python, JavaScript, SQL, PHP, Java, C++

Frontend & Web: React, HTML5, CSS3, Tailwind CSS, Framer Motion, REST APIs, Responsive Design

Backend & Architecture: Django, OOP, Database Design, Role-Based Access Control (RBAC), Transaction Management

Databases: MySQL, Oracle SQL, SQLite, PostgreSQL (working knowledge)

AI/ML: Machine Learning, scikit-learn, Classification Models, Gradient Boosting, Grid Search, Cross-Validation

Tools & Practices: Git, GitHub, Vite, Vercel, Agile/Scrum, Software Testing, Debugging, Technical Documentation

EXPERIENCE

AI/ML Intern | *Right Soft Options Institute, Kochi* | Jan 2026 – Apr 2026

Project: SafePassage, an emergency-alert and risk-scoring platform | *Python, Django, SQLite, REST APIs, scikit-learn*

- Delivered 45+ REST API endpoints across a modular Django backend supporting tourist, worker, and admin workflows.
- Secured multi-role access control (Tourist, Worker, Admin) ensuring strict authorization across API endpoints and frontend dashboards.
- Evaluated 4 classification algorithms using grid search and 5-fold cross-validation, selecting Gradient Boosting for the core 3-class risk model.
- Integrated machine learning inference into Django to provide real-time risk scoring, environmental data, and emergency resource lookup via single API calls.
- Automated safety escalation protocols (timed reminders and silent SOS alerts) with tokenized acknowledgement links for reliable incident tracking.
- Developed dynamic frontend features including live location tracking and shift alert pop-ups using vanilla JavaScript.
- Validated system reliability through 79 automated test cases and maintained structured architectural documentation.

ACADEMIC PROJECTS

Haritha Connect | *Python, Django* | Aug 2025 – Nov 2025

- Architected a multi-portal municipal waste tracking system featuring 3 distinct user roles and 26 routing workflows for streamlined operations.
- Engineered bulk-creation logic to automate collection schedules for 500 households per ward across a 10-day cycle while preventing duplicate records.
- Enforced atomic database transactions and row-level locks to prevent double-confirmation errors during payment processing.

Chai Book | *PHP, MySQL, JavaScript* | Apr 2025 – May 2025

- Designed a relational SQL schema with strict foreign-key constraints to maintain data integrity across payment tracking records.
- Implemented transaction-safe queries to handle concurrent updates and maintain consistent financial balances.

Quick Serve | *PHP, MySQL* | Sep 2023 – Mar 2024

- Built a multi-user service-booking platform that prevents provider double-booking by checking availability before confirming a request.
- Added conflict handling for overlapping appointments and documented the workflow and test steps.

PERSONAL PROJECTS

Personal Portfolio | React, Vite, Framer Motion, Tailwind CSS | Sep 2026

- Built a responsive personal portfolio in React from scratch, setting up the component architecture, routing and Vite build, and deployed it on Vercel.
- Managed state centrally across modular components and added scroll-based transitions with Framer Motion.
- Version-controlled the project with Git and GitHub.

EDUCATION

Master of Computer Applications (MCA) | CGPA 7.87/10 | 2024 – 2026

Sree Narayana Gurukulam College of Engineering, Ernakulam | APJ Abdul Kalam Technological University

Bachelor of Science in Computer Science (BSc) | CGPA 6.68/10 | 2021 – 2024

Government Victoria College, Palakkad | University of Calicut

12th | Percentage: 94% | 2019 - 2021

Kalladi Higher Secondary School, Mannarkkad | Kerala State Board

10th | Percentage: 82% | 2018- 2019

St. Dominic’s Convent English Medium School, Sreekrishnapuram | CBSE

CERTIFICATIONS AND WORKSHOPS

- Cloud Computing Workshop, Educkshetra (NASSCOM | Microsoft Technology Associate), Oct 2025
- NPTEL Certification, Cloud Computing, Jan 2025 – Apr 2025
